3. Open the firmware software, Click button "Connect".

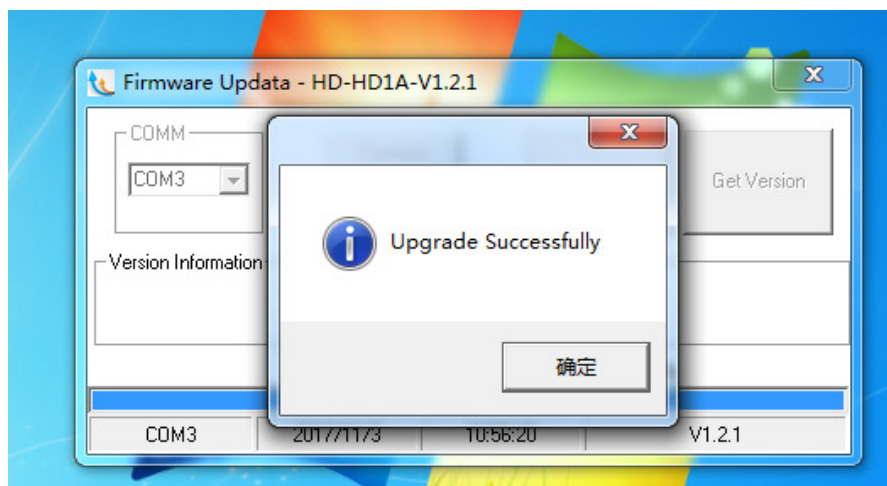

4. Click "Get Version" to get the firmware version.

5. Then update, it is going to begin update the firmware to your HD1.

6. The firmware update successfully after several seconds.

Once all the steps are complete, power the radio off and then back on again. Now your HD1 should be good to go! We will continue to support any problems about HD1, You can email us for any questions about Amateur Radios. hams@ailunce.com info@ailunce.com or follow our facebook page: <https://business.facebook.com/ailunce>
